IR Sauna Backrest

The IR backrest is driven by Far Infrared heat. FIR is known for its low heat radiant that provide lots of health benefits to your body. The heat penetrates deeper into your skin to soothe muscles, burn fats and detoxify through sweating.

The mild radiant heat of IR panel relieves stiff muscles by spurring good blood circulation that fasten healing recovery. Back pains are very common in workplace because of stress, poor sitting posture, prolong looking downwards or over-performing new activity that strains your back. The 40-55deg.C. heat from the IR panel keeps your back warm. This gives a relaxing feeling, stimulates good mood and improves back muscle flexibility.

code: 505-IR-A | D

- » Fiber Coated Infrared Emitter
- » Strong Nylon Strap
- » Adjustable Head Rest
- » On/Off Switch
- » AC Power Plug
- » Made from either Aspen or Cedar wood

Technical specs:

Source: Infrared Emitter
