

Steam Generator PLUS

The STP steam generator is a very powerful and reliable steam unit. The slender body is made of stainless steel sheet inside and outside providing long lasting strength and durability. Packed with temperature sensor, snap-in connection control unit, steam head and autodrain.

STP steam generators are available as 2 heating elements (3-5kW), 3 heating elements (4.5-7.5kW) and 6 heating elements (9-15kW). Kilowatt ratings of steam generators depend on the size of the steam rooms.

Technical DATA

2 Heating Elements

HEATER MODEL	kW	STEAM ROOM (m³)		SIZE OF HEATER (mm)			WEIGHT (kg)	CONTROL
		MIN	MAX	WIDTH	DEPTH	HEIGHT		
STP-30-1/2	3,0		3	540	210	470	18	separate
STP-35-1/2	3,5		3,5	540	210	470	18	separate
STP-40-1/2	4,0		4	540	210	470	18	separate
STP-45-1/2	4,5	2	5	540	210	470	18	separate
STP-50-1/2	5,0	2	6	540	210	470	18	separate

3 Heating Elements

HEATER MODEL	kW	STEAM ROOM (m³)		SIZE OF HEATER (mm)			WEIGHT (kg)	CONTROL
		MIN	MAX	WIDTH	DEPTH	HEIGHT		
STP-45-3	4,5	2	5	540	250	470	20	separate
STP-60-3	6,0	3	10	540	250	470	20	separate
STP-60-C1/3	6,0	3	10	540	250	470	20	separate
STP-75-3	7,5	4	15	540	250	470	20	separate
STP-75-C1/3	7,5	4	15	540	250	470	20	separate

6 Heating Elements

HEATER MODEL	kW	STEAM ROOM (m³)		SIZE OF HEATER (mm)			WEIGHT (kg)	CONTROL
		MIN	MAX	WIDTH	DEPTH	HEIGHT		
STP-90-3	9,0	8	20	540	300	470	23	separate
STP-90-C1/3	9,0	8	20	540	300	470	23	separate
STP-120-3	12,0	15	28	540	300	470	23	separate
STP-150-3	15,0	22	40	540	300	470	23	separate

⚠ For steam rooms that are built with light walls. Rooms with heavy walls or with ventilation, please use a steam generator with higher kilowatt. For higher kilowatt requirement, connect steam generators in series up to a maximum of 5 x 15kW (ex. 7.5kW + 15kW = 22.5kW or max. 5 x 15kW = 75kW)
