COZY TANK

SAUNA ROOM HUMIDIFIER

When filled with water SAWO Cozy Tank works as a sauna room humidifier without need to throw water on heater.

SAWO Cozy Tank is placed between heating elements and sauna stones. While hot sauna stones heat the Cozy Tank, water evaporates and soft steam is created inside sauna room for enjoyable sauna experience.

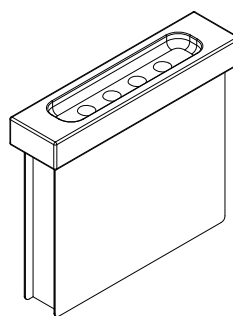

- » Water storage that adds steam when heater is hot
- » Refillable water through top cover holes
- » Thick stainless metal casing
- » Carved soapstone top cover
- » Available in 2 designs
 - Cozy tank cylindrical (water volume 0,6L)
 - Cozy tank rectangular (water volume 1,3L)
