

INFRARED PRODUCTS

Experience in deep relaxation with infrared

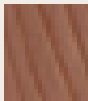

The infrared sauna is a **wellness treatment** that differs from the traditional Finnish sauna with its own benefits. The infrared **improves** blood circulation and muscle recovery, cleans and softens your skin, reduces stress, detoxifies your body, aids in weight loss, and boosts your immune system. The temperature in an infrared sauna is lower than in traditional saunas, up to 55–70°C, as the infrared panels mainly heat the body, not the air.

Our infrared products use far infrared radiation (FIR), which helps warm up your muscles and causes more sweating even at low temperatures. An infrared sauna is a hassle-free option for new and experienced sauna-goers. It only takes 10–20 minutes to heat up, no floor drains are needed and installing plug-ins is a breeze. Depending on your heat tolerance, it is recommended that you use the infrared sauna between 15–25 minutes at a time and 3–4 times a week for optimal health benefits.

With our infrared line, you may experience the gentle, yet impactful infrared wave therapy.

Our Infrared Sauna Rooms

Our standard infrared sauna rooms come in two sizes, either for one or two people. The far infrared panels do not heat the room as much as a traditional sauna because the majority of the heat is produced in your body.

- Session time: 1–60mins
- Packaging: Wooden crate
- Adjustable base support
- Modern LED lights (12W)
- Pre-installed exhaust fan (18W)
- 230V 1N~ plug-and-play installation
- Control: temperature, session time, lights, fan
- Fiber-coated far infrared panels (170W / panel)
- Sizes: 1-person sauna (1200 W) or 2-person sauna (1400 W)
- Material:  Cedar (D)

Infrared Panels

Our premium infrared panels are fiber-coated and can be used as single or double panels. The panels use far infrared radiation, which is an energy-efficient to produce heat.

- Surface material: Fiber coating
- Power: 220–230 VAC 1N~ 50/60 Hz Max 170 W
- Wavelength: 6,000–14,000 nm
- Single-panel dimension:
30mm (L) x 325mm (W) x 630mm (H)
- Double-panel dimension:
30mm (L) x 645mm (W) x 630mm (H)
- Triple-panel dimension:
30mm (L) x 960mm (W) x 630mm (H)

IR-PANEL-1-D: Single Panel

IR-PANEL-2-D: Double Panel

IR-PANEL-3-D: Triple Panel

INFRARED SAUNA CONTROL

Our infrared sauna control is designed specifically with convenience in mind. The control allows you to easily adjust the sauna temperature, session time, brightness, and ventilation level to your liking. You can choose between a separate interface and power controller or have a built-in control with both in one. In order to remotely control the sauna, you can connect the control to household automation systems.

- Light switch
- Fan control
- Temperature setting between 35–70 °C

Power Controller
IR-PC-V2
