

HELIUS MINI

THE HIDDEN HEATER

Compact. Discreet. Sleek.

HELIUS MINI-HEATER

Helius Mini
(Open Use)

Helius Mini with Hood
(Hidden Use)

Maintain a small space for a wall divider and recess area in order to place the heater behind or below the benches.

Helius Mini comes with a hood that is necessary when used as a hidden heater. It delivers the same innovation as the Helius in a more compact form. Discreetly installed behind the benches, it stays completely out of sight while advanced airflow ensures efficient, even heat with fewer stones and minimal safety distance. Powerful performance thoughtfully designed for smaller spaces.
